ADDENDUM #1

DATE: March 11, 2026
TO: ALL Bidders for the Bridge 85 and P-004 Replacement Project
RE: **ADDENDUM #1**
From: Daniel Johnston, P.E., Highway Engineer

The following items are part of this Addendum:

1. Question received: "How is the awarding going to work? I ask this because base bids and alternates were mentioned in the specs, but not when talking about the bridge or culvert."
 - a. Answer: This is one overall project and Johnson County intends to award this project to one prime contractor. All bids are required to have one itemized bid sheet for Bridge 85 and one itemized bid sheet for Culvert P-004. The Total Bid Amount for the project is the sum of both itemized bid sheets and shall be reflected on the provided Bid Summary Form. There are no bid alternates for this project.
2. Question received: "If the structures are being split up, do we need to supply multiple Form 96's, affidavits, etc.?"
 - a. Answer: All bids are required to have one itemized bid sheet for Bridge 85 and one itemized bid sheet for Culvert P-004. Only one original copy is needed of all other forms and documents for a complete bid can be submitted for the entire project. The Form 96 amount should be the Total Bid which is the sum of the two itemized bid sheets.
3. An updated XLS and PDF version of the Bid Sheet for Bridge 85 is included. A minor correction was made to the text at the end of the sheet to state "Computed Total Bid Contract Bridge 85 (Items 1 through **63**)". The original bid sheet stated "Computed Total Bid Contract Bridge 85 (Items 1 through 60).

A copy of this Addendum and a signed Acknowledgement of Receipt of Addendum form (included in the Bid Packet), shall be included with the submitted Bid to indicate receipt and acknowledge its requirements. If there are any questions, you may contact me at djohnston@johnsoncounty.in.gov.
